

## Haihaisoft DRM-X Tutorials

### Protect Plain PDF Document

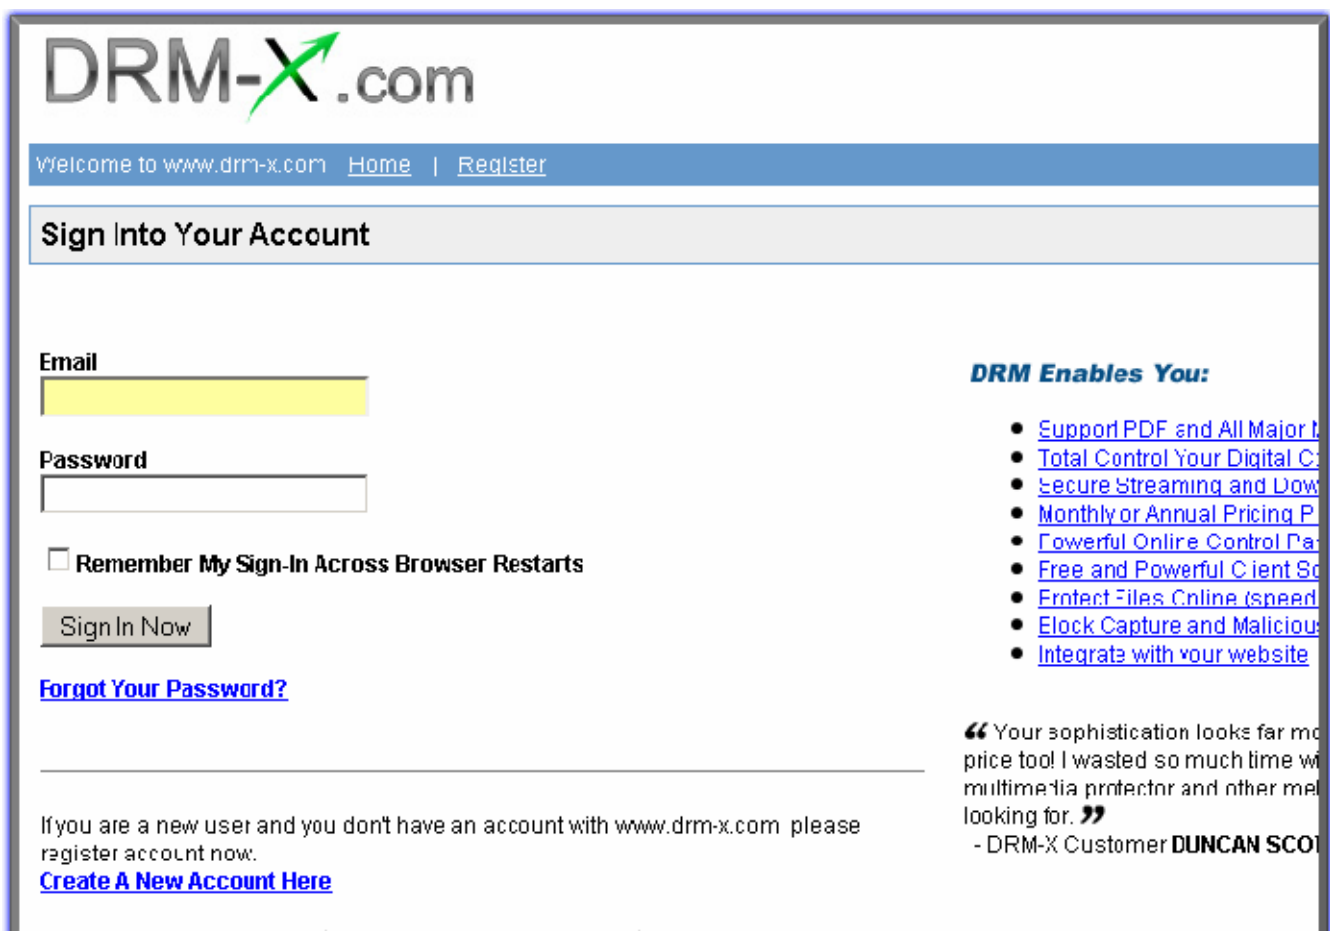

With [DRM-X.com](http://www.DRM-X.com), you can protect Plain PDF(without multimedia) files easily and powerfully. You can use Adobe Acrobat to make the multimedia PDF at first, then protect them on DRM-X.com – the most powerful and comprehensive On-Demand DRM system online. It's very easy. **So let's begin.**

STEP 1

**Login your DRM-X account**

Go to [www.DRM-X.com](http://www.DRM-X.com) and click the **My Account** tab on the top menu and input your login email and password to get into your DRM-X control panel. (Please use **IE Explorer.**)

<http://www.drm-x.com/login.aspx>

## STEP 2

**Get into the page of Protect Plain PDF****1. Click the second icon – *Protect Plain PDF (without Media)***

**DRM-X Account Home**

Welcome to DRM-X Account, your control panel for protecting, publishing, and selling Audio/Video and PDF documents.

[Protect Audio/Video \(All Major Formats\)](#) [Protect Plain PDF \(Without Media\)](#) [Protect Media PDF \(With Flash/Video\)](#) [Protect SWF Flash Movie](#)

[Buy Now](#) [Buy Now](#) [Buy Now](#) [Buy Now](#)

**Account Information**

Account ID	d02c810c-2d
Balance	999.90USD
Renew Service	<a href="#">Renew Service Now</a> Monthly Subscription. Your pay due date is on 24 of every month.
License Information	Your monthly fee includes <b>1600</b> free licenses. You have sent <b>44</b> free licenses.

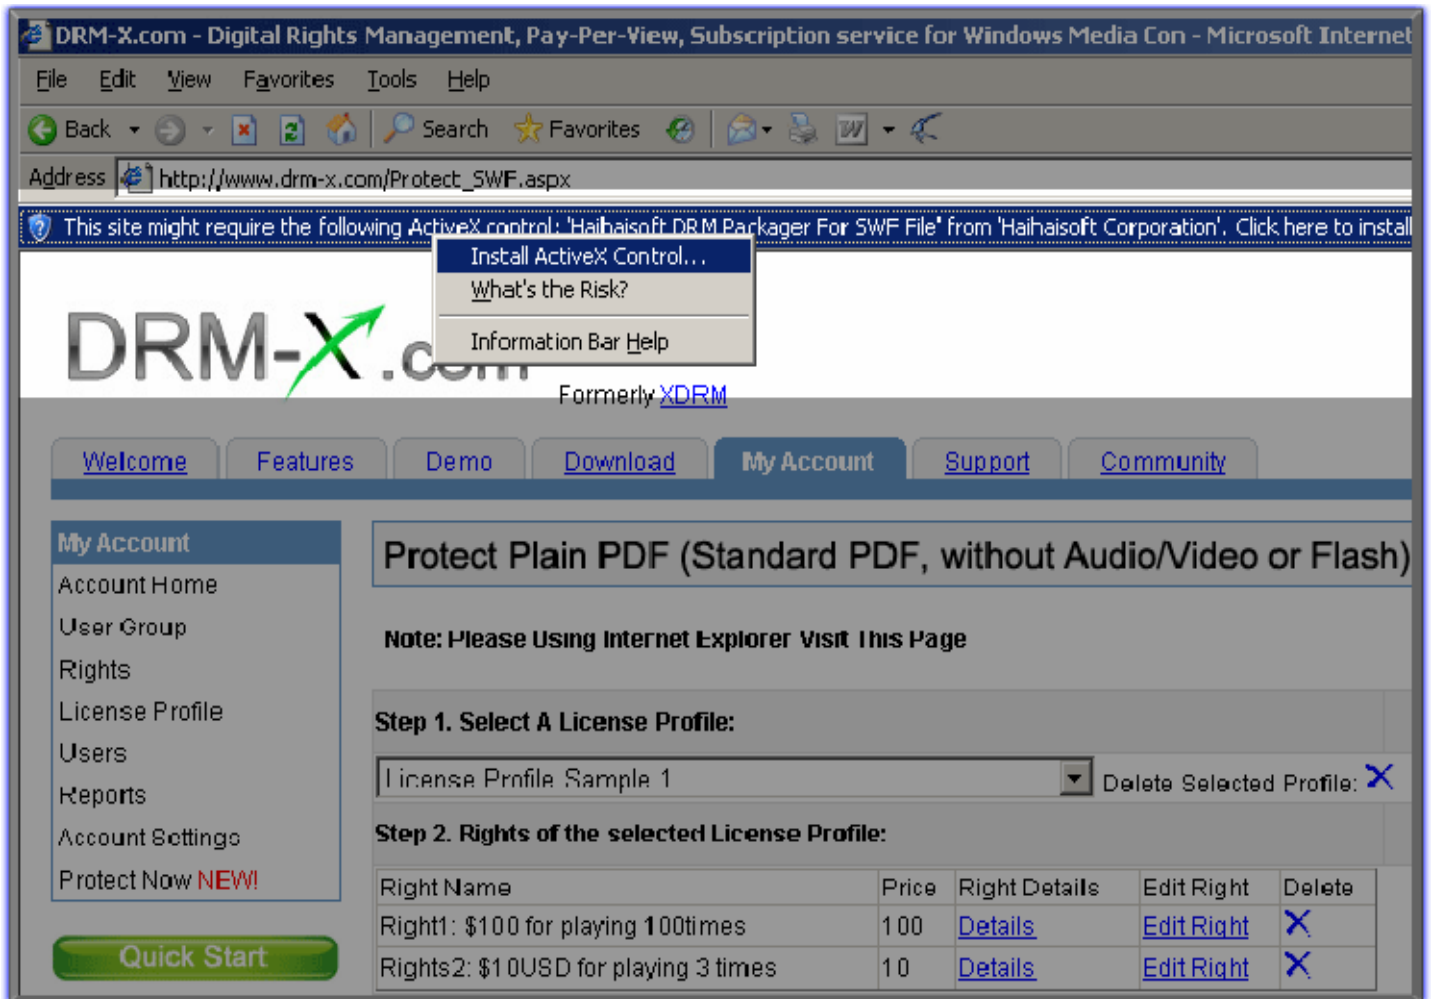

**Selected Package:**

[Business 5](#) [Select another package here](#)

[Get Help](#)

**2. Install the ActiveX controller automatically.**

IF it is the first time you come to this page, the IE explorer will remind you if you want to install the ActiveX controller. Please click the ***Install ActiveX Control*** button.

This course will cost some seconds, please wait patiently. Then you will see the window like below:

Click the **Install** button.

Now you can protect Plain PDF:

### Protect Plain PDF (Standard PDF, without Audio/Video or Flash)

**Note: Please Using Internet Explorer Visit This Page**

**Step 1. Select A License Profile:** [Edit this Profile](#)

License Profile Sample 1 Delete Selected Profile: [X](#)

**Step 2. Rights of the selected License Profile:**

Right Name	Price	Right Details	Edit Right	Delete
Right1: \$100 for playing 100times	100	<a href="#">Details</a>	<a href="#">Edit Right</a>	<a href="#">X</a>
Right2: \$10USD for playing 3 times	10	<a href="#">Details</a>	<a href="#">Edit Right</a>	<a href="#">X</a>

**Step 3. Which User Group can access this License Profile** [New U](#)

Select	Group Name	Edit Group	View Users	Delete
<input checked="" type="checkbox"/>	123	<a href="#">Edit Group</a>	<a href="#">Manage its Users</a>	<a href="#">X</a>
<input checked="" type="checkbox"/>	Default User Group4	<a href="#">Edit Group</a>	<a href="#">Manage its Users</a>	<a href="#">X</a>
<input type="checkbox"/>	Hay & Company	<a href="#">Edit Group</a>	<a href="#">Manage its Users</a>	<a href="#">X</a>
<input type="checkbox"/>	Video Guider User Group	<a href="#">Edit Group</a>	<a href="#">Manage its Users</a>	<a href="#">X</a>

After you selected Groups, click here to

**Step 4. Protect Files Online**

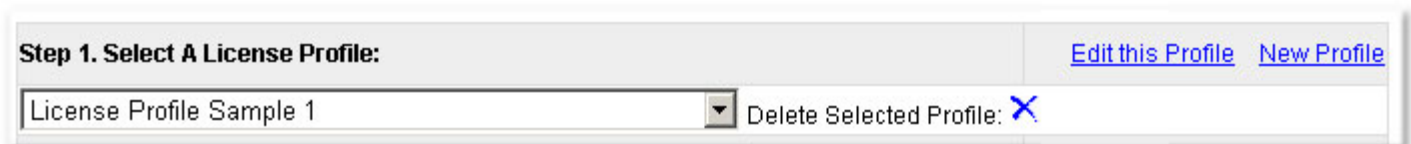

**DRM-X Packager (Protect Your Files Online)**

How to Tip: 1. Specify Output Files 2. Specify Input Files 3. Click Encrypt Button 4. Open Output Folder and View

## STEP 3

**Protect Plain PDF files**

Follow steps in the new page to protect your files

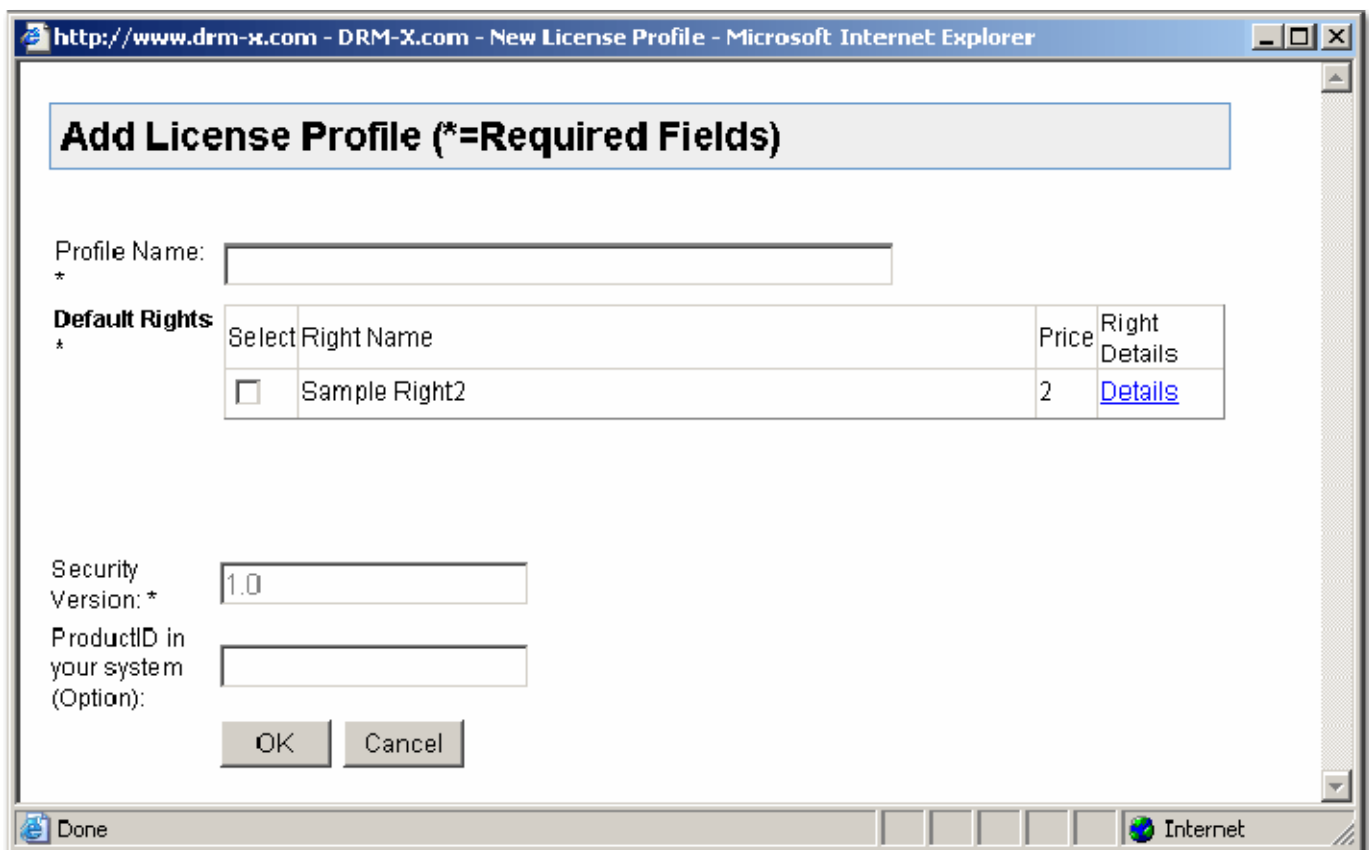

**3.1 Select a License Profile.**

Step 1. Select A License Profile: [Edit this Profile](#) [New Profile](#)

License Profile Sample 1 Delete Selected Profile: X

There is a default License Profile, you can edit the profile or create a new profile for protecting your videos.

Click the **New Profile** on the right top. It will pop up a new window like below:

http://www.drm-x.com - DRM-X.com - New License Profile - Microsoft Internet Explorer

### Add License Profile (\*=Required Fields)

Profile Name: \*

Default Rights \*

Select	Right Name	Price	Right Details
<input type="checkbox"/>	Sample Right2	2	<a href="#">Details</a>

Security Version: \* 1.0

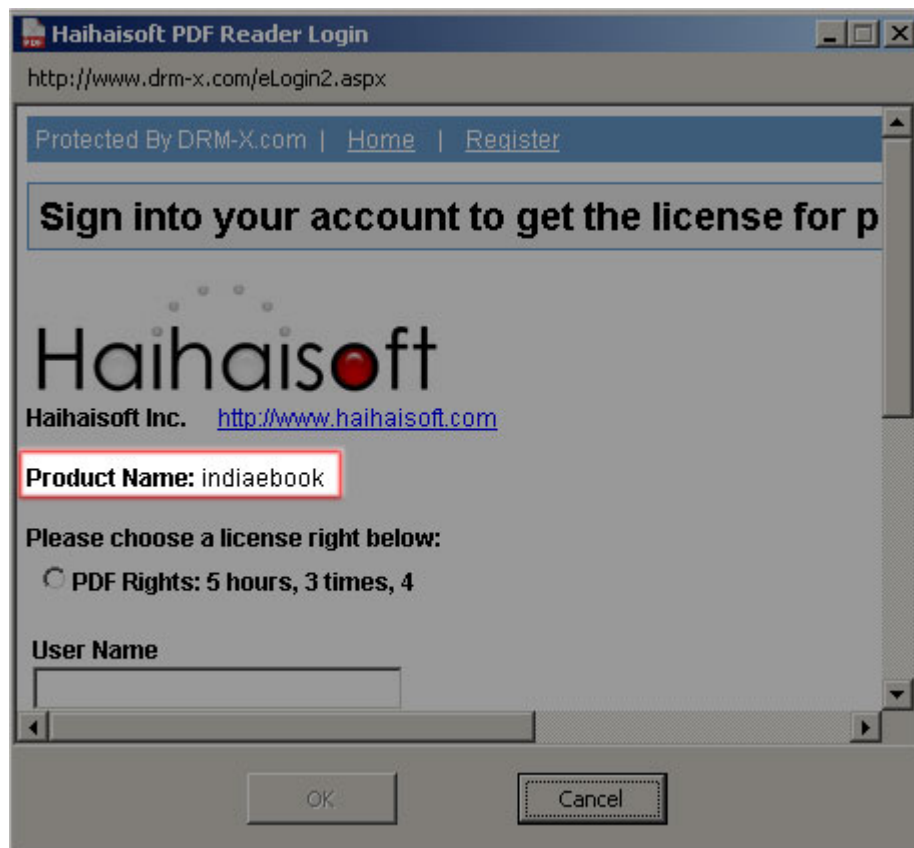

ProductID in your system (Option):

OK Cancel

Done Internet

Input the Profile name and don't choose the Rights here. We will add new rights for the

profile later. The profile name will be shown on the pop up login window when users open the protected files:

Click **OK** button when finish.

### 3.2 Add License Right to the License Profile.

Step 2. Rights of the selected License Profile:					<a href="#">New Right</a>
Right Name	Price	Right Details	Edit Right	Delete	
Right1: \$100 for playing 100times	100	<a href="#">Details</a>	<a href="#">Edit Right</a>	<a href="#">X</a>	
Rights2: \$10USD for playing 3 times	10	<a href="#">Details</a>	<a href="#">Edit Right</a>	<a href="#">X</a>	

You can add some Rights for the License Profile. Click the **New Right** link on the top left to create new Rights. It will pop up a new window:

http://www.drm-x.com - DRM-X.com - Add New Right - Microsoft Internet Explorer

### Add Right (\*=Required Fields)

**General Right Settings**

Right Description: \*

Right Price: \*  USD  
[Set Currency](#)

Play Count or Open Document Court: \*  This right specifies the number of times a consumer can play a media file in Haihaisoft Universal Player or open a document in Haihaisoft PDF Reader.

Begin Date: \* Month  Day  Year:

Expiration Date: \* Month  Day  Year:

Expiration After First Use: \*  Hours This right specifies the length of time (in hours) a license is valid after the first time the license is used.

Protect PDF Document:

Allow Print:  You need to enable Protect PDF Document to set Allow Print

Allow Clipboard:  You need to enable Protect PDF Document to set Allow Clipboard

[Watermark Settings](#) (Business Account Only) [Select another package here](#)

**Programs in Blacklist** (Programs with screen capture function. Business Account Only) [Select another package here](#)

Select	Program Name	Exe Name
<input type="checkbox"/>	Windows Media Encoder	wmenc.exe
<input type="checkbox"/>	CAMTASIA Recorder	CamRecorder.exe
<input type="checkbox"/>	FastStone Capture	fcapture.exe
<input type="checkbox"/>	Snagit	snagit32.exe

Approved program in blacklist

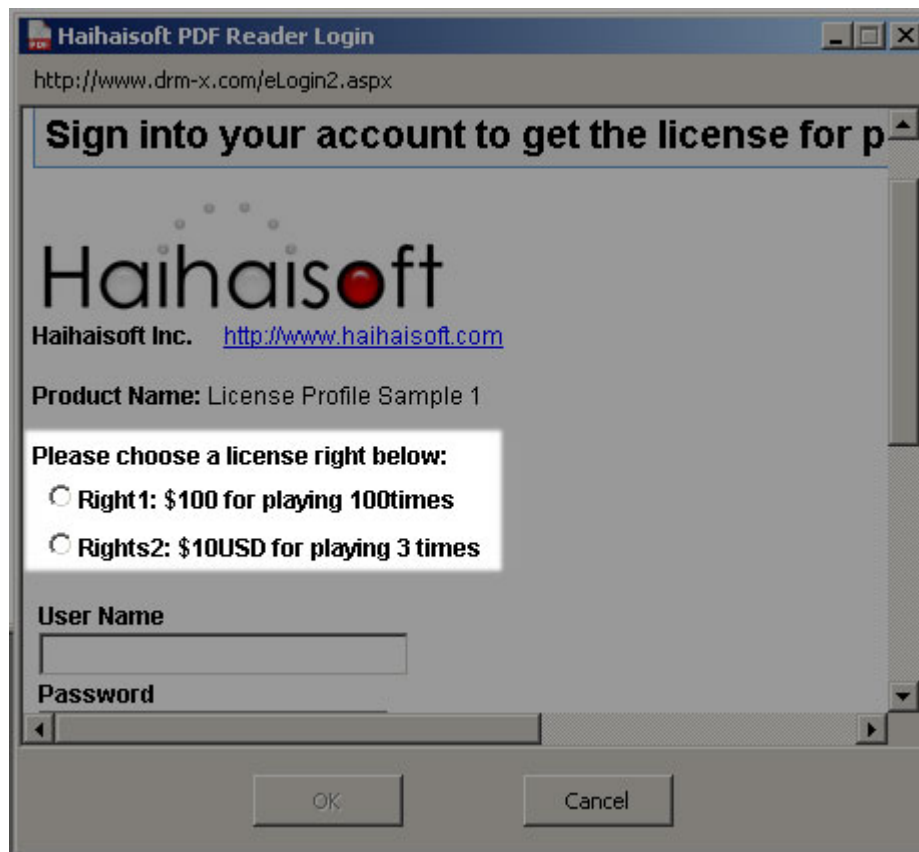

OK Cancel

Done Internet

You can edit the settings like **Rights name, Price of the Right, Play count limitation, Expiration** etc. for the Right.

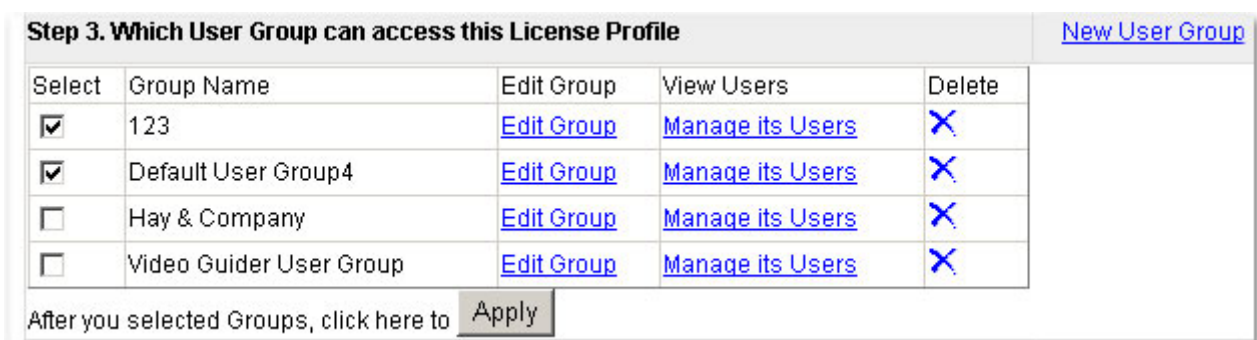

The Rights name will also be shown on the login window for users to choose:

When the **Right** which the user got is expired or the play count is up to the limitation, the user has to get another new license if he wants to play the file again.

### 3.3 Select which User Group can access this License Profile.

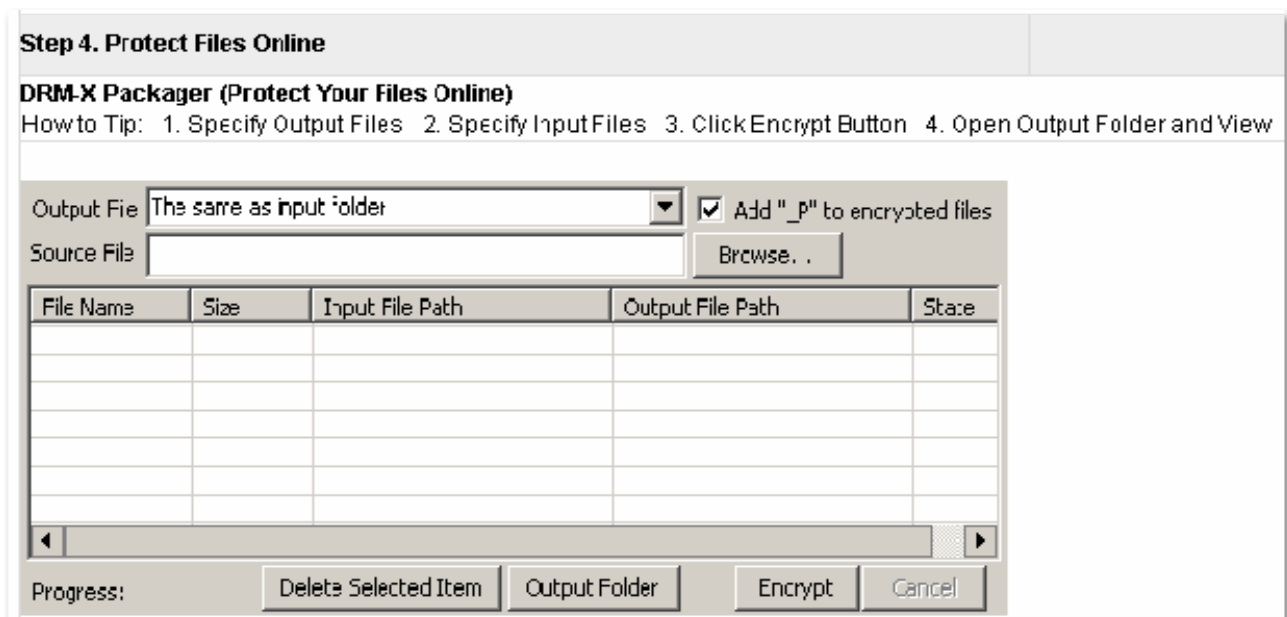

The users belong to the group you don't chosen here will not be able to open the file protected by this License Profile. So you can limit the access range of your users by this feature.

[See the tutorial](#)

Don't forget to click the **Apply** button after you choose the group.

### 3.4 Protect Audios/Videos with DRM-X Online Packager

- i. Specify output files
- ii. Input the files you need to protect. You can encrypt lots of files at a time.
- iii. Click the **Encrypt** button
- iv. The number of progress will be 100% when it is finished.

S T E P 4

**View the Protected files**

**4.1 Download and install Haihaisoft PDF Reader to play the protected files.**

This is download link for the player:

[http://www.drm-x.com/download/Haihaisoft\\_PDF\\_Reader.exe](http://www.drm-x.com/download/Haihaisoft_PDF_Reader.exe)
